

# Parts Sales Review Report

How many different parts reports do you run per day, week or month? With the Parts Sales Review (PSR) report, you can now get many of those reports in one Excel workbook. It's easy to use and each report view is formatted to fit on just one sheet of paper!

## Invoice, Inventory and Transaction Detail

Line item detail is downloaded from your DMS and formatted in Excel. Use Filters to review the details of each part billed out or any part in inventory. Want to find all the internal parts where the gross profit was less than 30%? It's easy with the PSR report!

## Easily Summarize Inventory

View inventory quantity and value by source or by age group. Recap your dirty core inventory. Print a list by bin location. Your entire inventory is downloaded into Excel making any report possible.

## Track Counterperson Productivity

The PSR report tracks sales, gross profit, documents and lines for each counterperson and can compare these to prior year numbers. Tire and accessory sales tracking is easy because you can set-up part groups to link sales by source, manufacturer group or similar part number.

## Simplifies Group Reporting

Most dealer groups require Parts Managers to prepare monthly reports of inventory levels and values, sales and open documents. The PSR report gives you this information and because it's in Excel, can even be linked to other Excel workbooks.

*A flexible tool that gives you the information you want to see at a glance.*

## Simple to Use - Run as Often as You Like!

1. **Run** our program to extract data from your system.
2. **Open** the report to update the numbers.
3. **Analyze** and **Print** the results!

You can run the report at any time of day, as often as you want. The data comes from the Parts area...depending on your DMS, there's no need to wait for Accounting to update the Repair Orders or Invoices.

# Parts Sales Review Report

## YOU CAN:

- ✓ Track Retail, Wholesale and Internal parts sales.
- ✓ Track C/P, Warranty and Internal RO sales.
- ✓ Track accessory or tire sales by counterperson.
- ✓ Analyze inventory using Excel Filters.
- ✓ Compare parts vs RO sales by counterperson.

## PLUS:

- ✓ Compare current to prior year sales by counterperson.
- ✓ Drill-down into problem areas or detail on a particular counterperson.
